

Ext. # 3145 from 14.07.2017

Alexey Kitaevskiy
Director, "CONIM", LLC

Reference letter

By this letter we inform you that "CONIM", LLC fulfilled the project regarding development and implementation of analytical reports on the basis of SAP BI BO for "lifecell", LLC.

"Conim" LLC was chosen based on the results of an online auction on the electronic tender site <https://smarttender.biz/> among suppliers for SAP software implementation in November 2016.

The project was implemented during the first and second quarter of 2017. The main objectives of the project were the implementation of reporting of the Logistics Department of "lifecell", LLC which included more than a dozen reports:

- Turnover balance sheets for the movement of materials;
- Reports on the movement of materials by movement types;
- Reports on the movement of materials in the context of serial numbers and lots;
- Reports on inventory turnover and calculation of turnover ratios;

Reporting is performed on an array of data from the SAP BW data warehouse for a historical period. The following tools were used for visualization of reporting:

- SAP BW Analyzer (add-in on MS Excel);
- SAP BO Design Studio (Infopanel / Dashboards);

Also, the scope of works performed by CONIM project team included:

- Preparation of documentation (technical protocols of settings);
- Training of the Customer's project team on examples of reports being developed;
- Support for Go-Live;

The project was completed in the scheduled time. Based on the results of the project implementation, we would like to note the high professionalism of the CONIM project team in terms of:

- project management;
- development of the project architecture;
- technical implementation of the project;
- responsibility for achieving the goals and objectives of the project;

We can recommend the CONIM team as a contractor for implementing reporting projects based on SAP BI, BO, SAP BW data warehouse.

**Manager of logistics and warehouse
management unit "lifecell", LLC**

Nikolay Opara
